A12: Product

Installation

The developed font code is the following:

final.rar

Usage

The login can be made with a some created example users:

email	password
ml@gmail.com	123456
gp@gmail.com	123456
mp@gmail.com	123456

The administrator's login can be made with the following credentials:

email	admin
password	moviebox

URL do produto: http://gnomo.fe.up.pt/~lbaw1531/final/

Help online

On the product page, clicking in the information icon (on the right of "add to wishlist") will show some information on how to use that same page. Also, on the user profile (or on the checkout) you can click in the question mark close to "CV Code", which will show a modal with the information on where to find the CV code in your card.

Form Validation

All required fields in the forms are validated with HTML5. On the sign page, we validate both the email (to see if it's a valid email address) and password (six or more characters) using JavaScript regular expressions. On the user profile (and on the checkout), also with regular expressions, we validate the credit card information (credit card number, expiration date and CV code).

Accessibility validations

Checklists

Checklist	Score	File
Accessibility	17/18	acessibilidade.pdf
Usability	25/28	usabilidade1.pdf

W3C Validations

Resource	Errors	File
CSS	No errors	css_validation1.pdf
Index page	No errors	index_validation.pdf
Porduct page	No errors	us_validation.pdf

Revisions

User story 12 (import from IMDb) was not completed due to time restrictions. User stories 52 and 53 (relative to the error log) were added so that we had an architecture to handle internal errors.

Developing stage

In this section, we present the user stories as described in the A2 artifact. For each user story, there's also the group member responsible for its development and the development stage in percentage.

Identifier	Name	Priority	Description	Responsible member(s)	Development stage
US01	Log In	high	As a *visitor* I want to *log in* the system so that I have access to more information.	Marta	100%
